

# BFF CREAMED HONEY 350 GRAMS

The initiative BFF - Bees Feed Families - not only helps bees and promotes biodiversity but also supports beekeepers and their families in Ukraine. By transferring knowledge and investing in beehives and equipment for honey harvesting, we assist beekeepers, many of whom are women, in building sustainable businesses. Furthermore, we help them obtain organic certification. With sufficient resources, proper training, and a fair price for honey, we can ensure stable growth. BFF is powered by Bijenbaas. At Bijenbaas, sustainability is highly valued in the broadest sense of the word. As a social enterprise, Bijenbaas contributes to various Sustainable Development Goals (SDGs) of the United Nations and operates according to the principles of B-Corp.

- Unique Track & Trace code on the lid so that you can trace the origin of the honey.
- With the proceeds from BFF honey, Bijenbaas supports beekeepers in countries like Ukraine, providing families in these countries with a better, sustainable future.
- Unlike "supermarket honey," each jar of Bijenbaas honey is different: the color and taste vary depending on the season and the origin of the honey. The flowers blooming at that location at the time determine its content.
- The honey is not heated or filtered.
- The beehives are located in natural areas where no chemical pesticides are used.

POWERED BY

**BIJENBAAS**

**OH HONEY!**

Contributing to the preservation of nature with a flavorful and exceptional product like honey. That's what Bijenbaas stands for. Our honey is sustainable and responsible, without any fuss. Just the way honey is meant to be, delicious for you and better for the bees.
