A brand that speaks to your customers

In the snacking industry, snash is a disruptive brand willing to bring snacks to the next era. Quality of ingredients, innovative recipes, colorful identity & unique tastes will please your customers.

Snash, the new kid on the block, with a proven track record

Snash is the result of a unique human and entrepreneurial history. The company has been able to perfect its activities by developing for several years products and logistics for the hotel, restaurant and catering industry and its demanding customers. By opening up to a wider market, Snash wishes to put its know-how and its quality to serve the taste buds of a wider public!

A perfect snack crafted with care & quality ingredients

All our recipes are developed by a dietitian-nutritionist. Therefore, 3 key nutrients are included in our snacks: fiber to control hunger, protein to boost energy and unsaturated fat to improve body functioning. Snash contains quality ingredients: dates for natural sugar and nuts for essential healthy fat.

Our products are plant-based, gluten-free, certified organic made from whole food and prepared in Brussels in collaboration with APRE Services, an inclusive adapted work company.
